Willowbrook at Hanover
A congregate care community
Hanover, Virginia

Willowbrook at Hanover is a congregate care community. The purpose of the community is to monitor and improve the health and well-being of the people who live here. Independent living, assisted living, and memory care are one community, in one building, with one staff and one set of common rooms.

What is included
- A full-time registered nurse wellness director and licensed nursing staff
- A health screening before you move in, and a screening at least once a year, so the community can arrange the care you need
- Daily wellness checks by staff who are here around the clock
- Congregate meals planned around the dietary needs of older adults
- Fall-prevention classes, chronic-condition education, and cognitive-wellness programs
- An emergency pendant answered by Willowbrook staff
- A path to assisted living or memory care in this building if you later need help with daily activities
- Housekeeping, linen, and transportation as part of the health-and-wellness program

The brochure does not describe the community as an age-restricted apartment building or as independent retirement living with no care. It does not say that residents must arrange their own medical care without help from the community.

Licensed assisted living and memory care are available on site. The assisted-living program is licensed by the Virginia Department of Social Services.

Services of this kind, including licensed assisted living, on-site nursing, arranged home health, and a transfer to a higher level of care in the same building, are not typically available in ordinary multifamily rental properties in the Hanover market.
